

**Get the Vote**

**You entered the “Why Our Science or Chemistry Lab Needs a Makeover” video contest, and you want to win, right? The key is to ignite the votes.**

Think *The Voice!* You need to get people to vote. In order to do that, you need to tell everyone you know and get them to tell everyone they know to vote for your video. And, since your video is awesome, people, will of course, want to vote for it.

**Here are some tips:**

- tell your Facebook, Twitter, Snapchat, and Instagram friends to vote
- ask your family members to share your posts with their friends and followers
- make a Facebook event page to get your friends, parents and family to vote
- make buttons
- place flyers on cars in the school parking lot and in the vents of each locker
- text everyone in your phone
- email everyone in your contacts
- add a “Vote for Me” line and link in your email signature
- encourage friends and family members to retweet
- post your video to your personal website or blog, asking followers for support
- put up flyers at work asking your co-workers to help you
- call your local newspaper or radio or TV station
- you get the idea – be creative, and get the word out ... VOTE FOR ME!

**Ok, so what are you waiting for? Go out there and ignite the votes!**
